

U.S.S.A. hosting its annual Summer Water Sport event

By JoDee Brooke

United Sportsmen (U.S.S.A.) is once again hosting its annual Summer Water Sport event July 16.

It's a fun-filled day including fishing, swimming, tubing, camping, waterskiing and canoeing.

Family and friends are all invited to come spend a day sharing it with a group of children with life-threatening illnesses and disabilities.

U.S.S.A. President and Founder Brigid O'Donoghue has been granting wishes to terminally ill and disabled children for some time. With the generosity of an all-volunteer team and

corporate sponsors, U.S.S.A. is able to make dreams come true for these children.

As part of the day's events July 16, "Patsy Clown" will get dumped out of the bucket of an excavator.

There are going to be food and beverages and even a bonfire.

Bring your swimsuit, towels, lawn chairs, bug spray, sun screen and camera and be a part of a day that will bring a whole bunch of joy to some very special children.

The event is taking place 15 miles east of Black River Falls on STH 54.

For more information, you can call (800) 518-8019.
